Thank you for the opportunity to respond to the Request For Information issued March 6, 2023. ProVantaCare coordinates managed care services for patients and providers in the fields of behavioral health, drugs and alcohol, long term care, physical disabilities, intellectual and developmental disabilities.

A network of over 80 diverse human services providers collaborating to contract with managed care organizations and other payers to enhance access to supports, while improving quality and outcomes in the delivery of health and human services. The organization has some unique structural advantages, making it a potential partner in a growing segment of provider-led collaborations with managing entities and payers.

In the LTSS arena, ProVantaCare includes providers of Personal Assistance, Brain Injury, Employment, Long Term Care, Nursing Home Transition and Service Coordination. Many of the providers operate in a broad geographic area and can respond to emerging needs in this market in a collaborative manner. The diversity of the network provides flexibility in the ability to secure contracts, pilot innovative programs, and enhance the transition of consumers across the services and age spectrum.

Our purpose:

- Readiness for managed care as a flexible “Managed Care Entity”
- Position providers in the forefront of systems change
- Move toward alternative reimbursement structures and Value-Based Payment (VBP) Structures

ProVantaCare offices are at 777 East Park Drive Harrisburg, PA 17111. The point of contact for the respondent is Fady Sahhar, President / CEO, fsahhar@provantacare.com; (856) 397-504.
